

### Renault Megan / Laguna Remote Control Programming

Open Key and read data from white sticker inside key head.

Keys with 5 number markings do not require programming.

Keys without markings require programming using MultiTester-Pro Renault ProLine Software 4.15 or above.

Keys with 5 or 7 character markings require programming using MultiTester-Pro Renault ProLine Software 4.15 or above.

.

Keys with 8 character markings - (Ignore = or # figures when counting digits) – follow the following sequence:-

-Ensure the ignition is OFF.

-Press and hold internal central door locking button for more than 5 seconds and release.

-Within 10 – 15 seconds press first key lock/unlock button twice (once on some models) then second key lock/unlock button twice. Doors should then lock or unlock.
